

Multicom® Wall Panelling

Resco's Multicom® wall paneling system is perfect for many areas; this is a cost effective, high-impact resistant one panel system.

Panels are blind fixed resulting in a cost saving, with no need for a conventional impact resistant backing sheet.

Suitable for

- All wet or damp situations
- Toilet and shower areas as our Compact Laminate product is impervious to water
- Areas requiring high levels of hygiene, for instance commercial kitchens
- Changing rooms and public areas
- Vandalism prone sites – most graffiti can be easily removed
- Fire rating: Group 3 (NZBC C/VM2 - ISO5660)

Multicom Compact Laminate panels are 6mm thick and the large panel sheet size of 2450mm x 1850mm minimises the number of jointers. Our custom aluminum jointers incorporate built-in expansion slots which can be powder coated to match the panel.

Recommended for

- Ablution blocks
- Shower rooms
- Toilet blocks
- Commercial kitchens
- Operating theatres
- Resthomes
- Changing rooms
- Gyms
- Prisons
- High abuse residential and institutional housing
- Hotels

Features

- Available in Resco Antibac panels that kills bacteria for the lifetime of the panel
- 6 mm prefinished Compact Laminate panels
- Wide range of colours and finishes
- Easy to clean and low maintenance
- Strong and durable – 'built-for-purpose'
- Impervious panels, provides solutions for wet areas

Colours

Panel Colours

Multicom® is available in:

- Resco AntiBac range**

See over page for typical wall panelling layout and sizing options.

RESCO
ANTIBAC PANEL
Lifetime Protection

Multicom® is now available in an exciting new Compact Laminate panel made with cutting-edge anti-microbial technology that continuously destroys bacteria, for the lifetime of the panel.

MultiCom®
Advanced wall panelling

Standard setup

- 6 mm Compact Laminate panels with a sheet size of 2450 mm x 1850 mm are attached to wall using customised aluminium jointers with built-in expansion slots
- Typically installed onto 18 mm x 40 mm H3.I battens (or steel battens) at 600 centres with vent strip on the bottom
- Carry out the installation according to 'Resco Installation Instructions'
- The panels can be cut with a skill saw using fine-tooth tungsten tipped blade

Durability and maintenance

- Compact Laminate panels equal an extended product life.
- Resco AntiBac panel kills bacteria for the life time of the product.
- Being a tough durable product it is perfect for high traffic locations and because it is impervious to water it is ideal in wet areas.
- Proven graffiti resistance.
- Easily cleaned with a mild detergent.
- 10-year guarantee on panel integrity and 2 years on hardware.

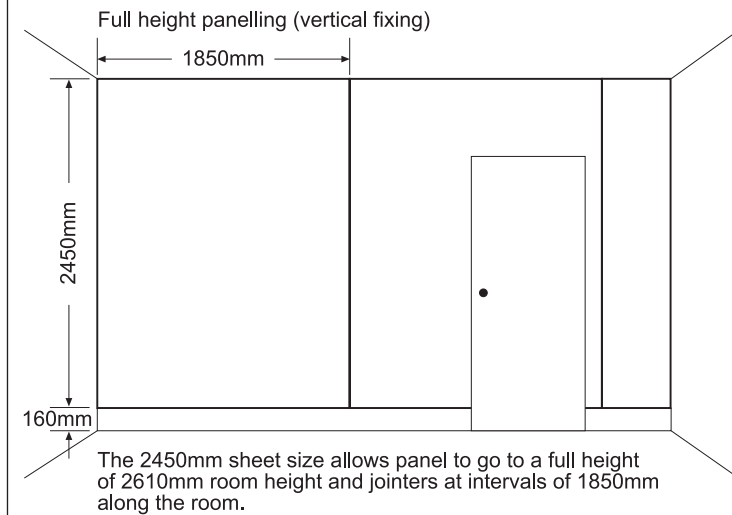

Lead time

If panel is in stock, lead time can be as fast as a few days.

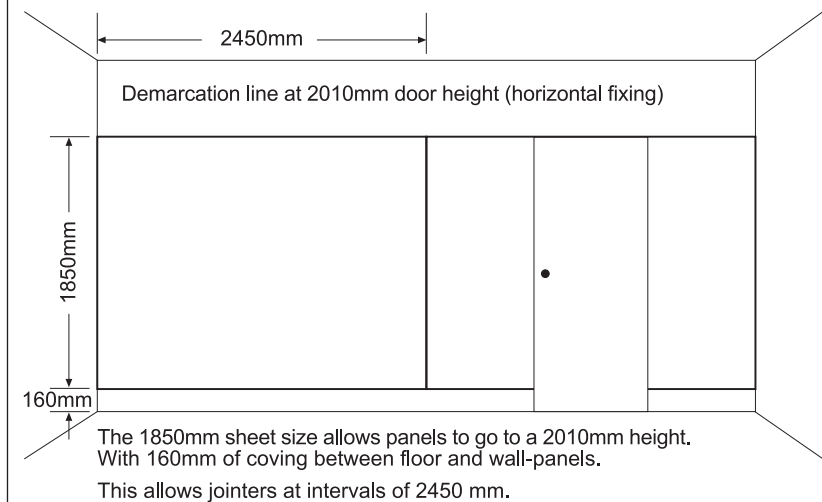

If Designer colour range, this is ordered in and has a 12 week lead time.

Contact our team for accurate lead times.
