

The Multicube® cubicle system

The Multicube® cubicle system is cantilevered off the back wall, designed to be suspended above the floor with no fixing to the ceiling. The use of Compact Laminate ensures Multicube® is strong and durable with a functional but floating look.

Customers love this design because of the clean lines and rebated doors. Not only do they look great, the cubicles are extremely easy to clean, with minimal dirt traps.

Recommended for

Offices
Hotel complexes
Shopping Centres
Schools
Sport & Recreational areas
Community Clubs
Camping & Caravan sites, campgrounds

Features

Specific qualities of the Multicube® system

- Compact Laminate panels provide solutions for both toilet and shower situations
- Available in Resco AntiBac panels
- Choose from New Zealand's largest range of Compact Laminate colours and finishes
- Custom made cubicles
- Easiest cubicle system to clean, and low maintenance
- Minimal dirt traps under floating partitions
- Optimising privacy with Flush In-line doors and rebated edges
- Suitable for cubicles between walls

Standard materials and manufacture

- 13mm Compact Laminate options:
 - Resco Antibac Compact Laminate panels
 - Laminex Compact Laminate panels
- Cubicles are an open-in door option
- Aluminium standard leaf hinges
- Brushed silver satin Indicator bolt
- Chrome plated coat hook and door-stop

Edge treatment

- No edging is required as Compact Laminate is a finished product, a simple furniture oil enhances the black edge.

Options

- Shower seats and brackets
- Privacy and modesty screens to match your colours
- Stainless steel self-opening or self-closing hinges
- Layouts are wall to wall
- If disabled accessible or return cubicles are required, a pedestal will need to be added, call Resco to discuss further

Dimensions

As cubicles are custom made to your measurements, depths and widths can be varied to suit, while complying with the NZ building code.

The Multicube series standard dimensions are:

- Height 2076mm with 160mm floor clearance
- Depth 1600mm-1800mm (1900mm for accessible)
- Standard cubicles are recommended in an open-in door option
- Standard cubicle doors are 610mm (opening is 596mm)
- Accessible cubicle doors are 810mm (opening is 796mm)
- Sliding doors are also available

Durability and maintenance

- Compact Laminate panels equal an extended life.
- Resco AntiBac panel kills bacteria for the lifetime of the panel.
- Being a tough, durable product it is perfect for high traffic locations, and because it is impervious to water it is ideal in wet areas.
- Easily cleaned with a mild detergent.
- 10-year guarantee on panel integrity and 2 years on hardware.

Lead time

If panel is in stock, once dimensions are confirmed, lead time can be as fast as a few days.

If accent colour range, this is ordered in and has a 12 week lead time.

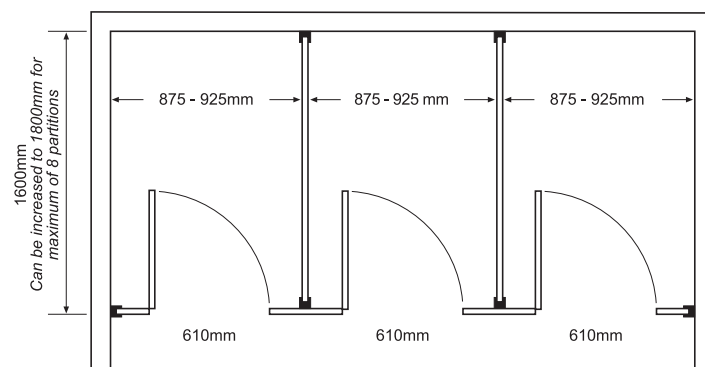

Contact our team for accurate lead times.

Installation

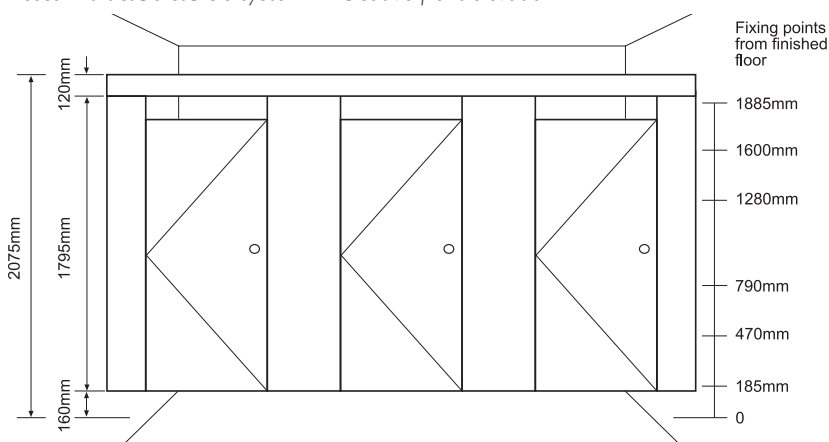

Resco has an installation service available, or customers can install themselves as Resco cubicles come as a kitset delivered to site. Kitset includes installation manuals and hardware.

Resco Multicube cubicle system - Indicative floor plan

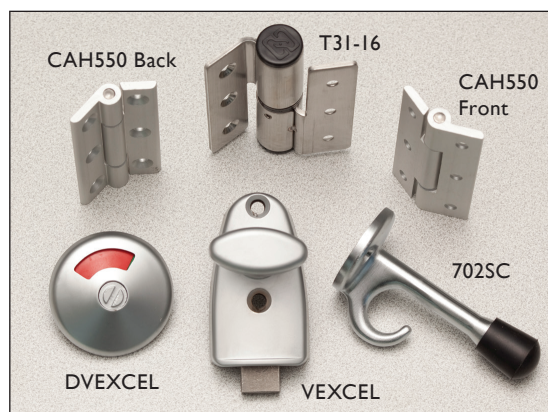

The Multicube® suspended system is best in wall-to-wall configurations. Ensure that the back wall is sufficiently solid to support the Suspended Multicube® system - this can be done by using a vertical fixing the full height of the wall.

Resco Multicube cubicle system - Indicative front elevation

Drawings show cubicles between walls, other configurations and quality hardware options are available.

Easy clean under floating partitions
