

IMPORTANT

SAFE PANEL HANDLING INSTRUCTIONS

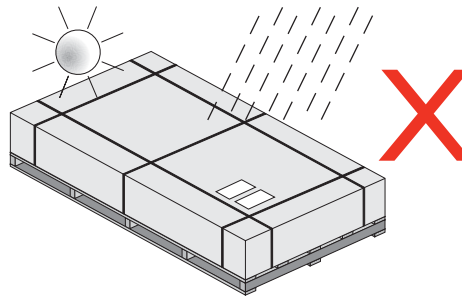

Although Compact Laminate panels are tough and durable, they must be treated with care. Panels can be damaged if not stored or handled properly during assembly.

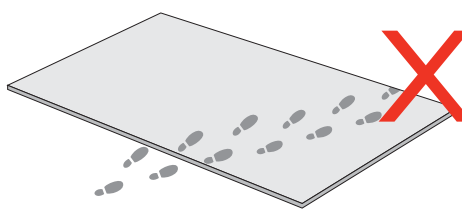

STORE INSIDE and keep in original packaging until needed.

DO NOT store in sun or rain, or at high temperatures.

DO NOT walk-over.

PERSONAL PROTECTION.

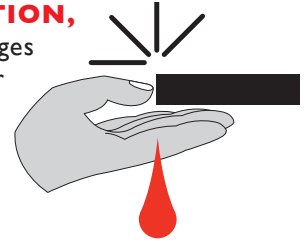

Eye: Dust resistant safety glasses should be worn when machining.

Skin: Protective gloves should be worn.

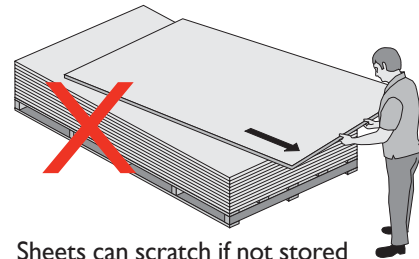

Respiratory: A class P1 or P2 replaceable filter or disposable half face piece particulates respirator should be worn when machining.

Flammability: Keep all storage and work areas well ventilated to avoid a buildup of dust that could ignite.

USE CAUTION, machined edges may be razor sharp!

DO NOT slide panels - LIFT them!

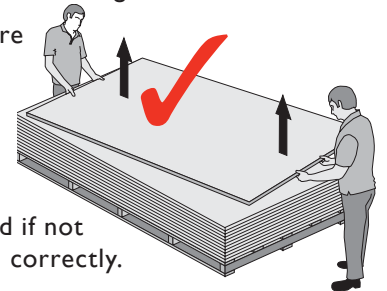

Sheets can scratch if not stored correctly - ensure free of dust and debris.

2 MAN LIFT.

Use suction lifting aids if available.

Take care when moving panels they can be damaged if not handled correctly.

FIRST AID MEASURES.

Eye: Flush with flowing water for at least 15 minutes, and if symptoms persist seek medical attention.

Skin: Wash with mild soap and running water. Seek medical attention if symptoms persist. For cuts, clean wound and apply antiseptic dressing.

Inhaled: Leave the dusty area.
