MultiCom[®]

Advanced wall panelling

Resco's Branz appraised wall lining system – MultiCom, is the perfect solution for ablution areas. MultiCom copes with the use and abuse that many ablution areas get. It's graffiti resistant and because it's a tough solid core panel it copes in these high use and abuse areas.

MultiCom panels are a prefinished panel and come in a huge range of colours. Panels are blind fixed resulting in a cost saving, with no need for a conventional impact resistant backing sheet.

Ideal ablution areas have MultiCom on the wall linings, glue fixed cubicles allowing superb protection of any waterproof membrane. In combination with good flooring, this means – according to our customer feedback – cleaning times are halved!

Recommended for

- Ablution blocks
- Shower rooms
- Toilet blocks
- Commercial kitchens
- Operating theatres
- Rest homes
- Changing rooms
- Gyms
- Prisons
- High abuse residential and institutional housing
- Hotels

Features

- MultiCom panels are 6mm thick and the large panel sheet size of 2450mm x 1850mm minimises the number of jointers
- Our custom aluminium jointers incorporate built-in expansion slots which can be powder coated to match the panel
- Impervious panels provide solutions for wet areas
- Strong and durable – 'built-for-purpose' Resco Antibac panels provide solutions for ablution areas and any other wet area situations
- All Resco Compact Laminate panels are Antibac, using silver ion antimicrobial technology that continuously destroys harmful bacteria, for the lifetime of the panel
- New Zealand's largest range of Compact Laminate colour and finishes
- Easy to clean (cleaning time notably reduced) and low maintenance

Sandspit Holiday Park

- Certified Greenguard Gold, complies with GreenStar & Living Building challenge

Standard Materials and Manufacture

- 6 mm Compact Laminate panels with a sheet size of 2450 mm x 1850 mm are attached to wall using customised aluminium jointers with built-in expansion slots
- For dry areas it can be installed direct onto framing
- For wet areas or if a flat surface use 18mm x 40mm H3.1 or H1.2 battens at 600mm centres with vent strip on the bottom
- Carry out the installation according to 'Resco Installation Instructions'
- The panels can be cut with a skill saw using fine-tooth tungsten tipped blade

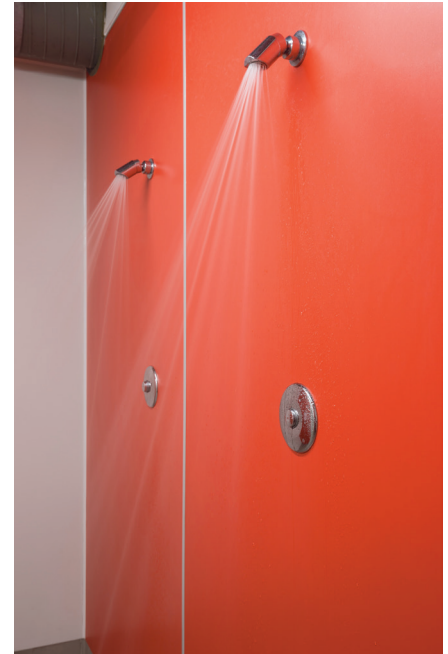

Edge Treatment

- No edging is required as Resco Antibac Panel is a finished product
- MultiCom Panel will not delaminate

Colours

Panel Colours

Resco has New Zealand's biggest colour range. For a full list go to: www.resco.co.nz/colours

Sir Owen Glenn National Aquatic Centre

Aluminium colours

MultiCom Aluminium Jointers are available in any of the Dulux powder coating range. Our stocked colours are Pearl White, Off White and Silver Pearl.

For a full list go to:

www.resco.co.nz/colours

See the website or call for colour options and samples.

Durability and Maintenance

- MultiCom panels ensure an extended life and minimal maintenance
- MultiCom panel surfaces kill bacteria, viruses and fungi for the lifetime of the product
- Tough and durable, MultiCom is perfect for high traffic locations, and because our panel is impervious to water it is ideal in wet areas.
- Superb ease of cleaning and can even be hosed
- 10-year guarantee on panel integrity

Lead Time

If your panels are in stock, once dimensions are confirmed, lead time can be as fast as a few days. If you choose the Designer colour range, this is ordered in and has a 12 week lead time.

Contact our team for accurate lead times.
